

Polydimethylsiloxane emulsion EM-3235 TDS

Features

- Ready-to-use non-ionic emulsion
- Has gloss and hydrophobicity
- Good wetting and sliding properties
- Universal release agent
- Free of alkyl phenol polyoxyethylene ether (APEO)
- Compliance with Cleaning Agents Regulation (EC) No.648/2004
- Good emulsion stability at temperatures below 50 °C
- Good dilution stability, can be diluted to 1%
- Good freeze-thaw stability

Applications

- MOON EM-3235 Emulsion can be used as a polish ingredient in automobile and furniture polish, and can provide good gloss with minimal application amount
- As release agent for:
Rubber or plastic parts (bottle stopper, screw cap, bucket stopper, etc.)
- For lubrication of:
extruded rubber parts; Conveyor belts
- Lubricants for textile machinery:
Spinning
Sewing thread lubrication
Knitwear manufacturing
Sewing needle lubrication
Glass cloth exhaust filter

Product parameters

Solid content	35±2%
Appearance	Milky liquid
PH	7
Ionic type	Nonionic
Diluent	Water

Anhui Moon Technology Co., Ltd.

DESCRIPTION

How to use

Procedure for Padding:

1. Scour goods in a non-ionic detergent and rinse thoroughly.

Follow with an acid rinse using 2 g/L of 80% acetic acid for 5 minutes. This will neutralize any alkali residues from previous processes that may cause pad bath instability and lead to oil spots on fabrics or gel on the rollers.

2. If crease resist resins or fillers are used, dilute in the mixing tank in accordance with the manufacturers' instructions. If hot, cool to below 30°C before adding the silicone emulsion.

3. Pre-dilute the required amount of EM-3235 Emulsion with an approximately equal weight of cold water and add to the mixing tank.

4. If crease resist resin catalyst is used, pre-dilute with an equal weight of water and add to the mixing tank.

5. Top up to final volume with cold water.

Precautions During Use:

- Start with clean mixing tank, delivery lines, pad box and rolls.
- Dilute the emulsion with cold water only.
- Do not use a high shear stirrer when making finishing liquor

Handling Precautions

PRODUCT SAFETY INFORMATION REQUIRED FOR SAFE USE IS NOT INCLUDED IN THIS DOCUMENT. BEFORE HANDLING, READ PRODUCT AND SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION.

Usable Life and Storage

EM-3235 Emulsion will freeze so adequate precautions should be taken. In case of freezing, thaw at room temperature before use store above 5°C.

When stored at or below 25°C in the original unopened usable life of 18 months from the date of production

Limitations

This product is neither tested nor represented as suitable for medical or pharmaceutical uses
