N-[3-(trimethoxysilyl) propyl] n-butylamine

CAS: 31024-56-3

Product Information

Product Code: M-310

Chemical Name: N-[3-(trimethoxysilyl) propyl] n-butylamine

Molecular Formula: $C_{10}H_{25}NO_3Si$

Molecular Weight: 235

CAS No.: 31024-56-3

Properties

- ❖ M-310 is colorless or yellowish with a slight ammonia taste and is soluble in alcohol, aliphatic or aromatic hydrocarbons.
- ❖ A difunctional group of silane containing an active secondary amino group and a hydrolyzable methoxy group.
- ❖ Good film forming performance.
- ❖ Polyurethane end seal silane is preferred.
- ❖ The anti - UV and anti - yellowing properties of polyurethane sealant were improved.
- ❖ Aniline free is more environmentally friendly.

Technical data

Typical characteristics	Value
Appearance	colorless or light yellow liquid
Purity	≥97.0%
Density at 20°C	0.947g/ml
Boiling point at 760mmHg	238°C
Flash point (closed cup)	110°C
Refractive index at 25°C	1.4246

Note: the above data are for reference only, can not be used as a technical specification

Application

M-310 is a double functional group silane with both active secondary amino and hydrolyzable methoxy groups.

Its dual reactivity enables M-310 to combine inorganic materials (e.g., glass, metals, fillers) and organic polymers (e.g., thermosets, thermoplastics, and elastomers) by chemical bonds. This function allows the product to be used as a bond accelerator or surface modifier.

Product security, handling and storage

Before using this product, you should carefully read the latest product safety technical information and toxicity data of this product and the correct storage, transportation and use information of this product.

After the container is opened, it should be sealed to prevent water vapor from entering to produce hydrolysis.

The expiration date of the product is indicated on the label. After this time is exceeded, it does not mean that the product is no longer usable, and it can still be used after being qualified after performance testing.

Packaging

The size of the available packages can be checked with International Sales Department of Moon Tech.

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the products for a particular purpose.
