Anhui MOON Technology., Ltd.

Room 449, Building 3, Industrial Park, 1151 Yanan South Road, Bengbu City,
Anhui Province, China POST CODE：233030 TEL,FAX：+86-552-3119866

KH-570

ANHUI MOON TECHNOLOGY CO.,LTD.

Edition: 2.0

Material Safety Data Sheet are compiled according to GB / T 16483(2008)，GB / T 17519(2013)

1. PRODUCT AND COMPANY IDENTIFICATION

1.1 Name of substance/preparation

Commercial product name: KH-570

Chemical name: γ-(Methacryl oxyl) propyl tri methoxy silane

1.2 Use of substance/preparation

Silane coupling agent for improving the surface bonding properties of organic and inorganic materials.

1.3 Company information

Manufacturer/distributor: ANHUI MOON TECHNOLOGY CO.,LTD

ADD:Room 449, Building 3, Industrial Park, 1151 Yanan South Road, Bengbu City, Anhui Province, China

Postal code:233000

Tel/Fax: +86-552-2079969

1.4 Revision date :

2021.04.20

2. HAZARDS IDENTIFICATION

2. 1 Classification of GHS

Physical hazard

flammable liquid	Category 4

Health hazard

Acute toxicity-oral	Category 5
Acute toxicity- skin	Category 5

Environment hazard

2.2 Label elements of GHS

Pictogram

Signal word warning

Hazard statement(s)

H227	Flammable liquid
H303+H313	May be harmful in contact with swallowing or skin.

Precautionary Measure

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P280 Wear protective gloves/protective clothing/eye protection/face protection

Accident respond

P370+P378 In case of fire: Use Dry sand, dry powder or soluble bubble for extinction.

P403+P235 Store in a well-ventilated place. Keep cool.

Safety Storage

P405 The storage area must be locked.

Waste disposal

P501 Dispose of contents/container to (in accordance with local/regional/national/international regulation

2.2 Other effects

Chronic: No information found.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Chemical characterization (substance)

CAS No.	Chemical characteristics
2530-85-0	γ-(Methacryl oxyl) propyl tri methoxy silane

3.2 Ingredients

Chemical name	CAS No.	Concentration
γ-(Methacryl oxyl) propyl tri methoxy silane	2530-85-0	≥97.0%
Methanol	67-56-1	≤3.0%

4. FIRST AID MEASURES

4.1 General information
Move the patient to the safety area,consult a physician. Show this safety data sheet to the doctor
in attendance.

4.2 After inhalation
Remove from exposure and move to fresh air immediately. If not breathing, giveartificial respiration. If breathing is difficult, give oxygen. Get medical aid if cough or othersymptoms appear.

4.3 After contact with the skin
Get medical aid. Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.

4.4 After contact with the eyes
Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.

4.5 After swallowing
Get medical attention.

4.6 Advice for the physician
Treat symptomatically and supportively.

5.FIRE FIGHTING MEASURES

5.1 Flash point: 108℃

5.2 Suitable extinguishing media
Use dry powder or foam in large fires and carbon dioxide, dry powder, and sand in small fires. Water can be used to cool containers affected by the fire.

5.3 Special danger
Be careful, it may decompose under fire or high temperature to produce toxic fumes.

5.4 Specific methods
Decide whether you need to evacuate or isolate the area based on your local emergency plan. Keep water exposed containers cool by spraying water.

5.5 Special protective equipment for firefighters
Wear personal protective equipment when fighting fires.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions

Wear personal protection equipment, avoid contact with eyes and skin. Avoid inhaling mists and vapours. Ensure adequate ventilation.

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Discharge into the environment must be avoided. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. Do not allow run-off from fire fighting to enter drains or water courses.

6.3 Methods for removal of spillage

Absorbed with inert adsorbent and treated as hazardous waste. Store in a suitable enclosed processing container.

7. HANDLING AND STORAGE

7.1 Handling

Use in a ventilated area.

The product is exposed to flammable methanol in water or moist air when used.

During use, exposure to methanol must be controlled, and ventilation must be provided by using air supply or self-contained breathing apparatus.

Don't get in your eyes.

Avoid skin contact.

Avoid breathing steam, mist, dust or smoke.

Keep container sealed.

Don't take it internally.

Remove contaminated clothing immediately.

Develop good industrial hygiene habits. Wash before eating, drinking or smoking.

Good fire protection measures.

7.2 Storage

Store in a cool place.

Containers should be kept tightly closed and stored in a dry and ventilated place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Maximum allowable concentration

Ingredient name	CAS	Maximum allowable concentration
γ-(Methacryloxyl)propyltrimethoxy silane	2530-85-0	See methanol
Methanol	67-56-1	CHINA: TWA 25 mg/m^3. STEL 50 mg/m^3. Can be absorbed through the skin OSHA PEL (final rule): TWA 200 ppm, 260 mg/m^3 ACGIH TLV-skin: TWA 200ppm, STEL 250 ppm.

8.2 Engineering controls

The workplace is recommended to be separated from other workplaces. Closed operation to prevent leakage.

Increase ventilation.

Set up automatic alarm devices and accident ventilation facilities. Set up emergency evacuation routes and necessary escape areas.

Set up red area warning lines, warning signs and Chinese warning instructions, and set up a communication alarm system.

Provide safety shower and eyewash equipment.

8.3 Personal protection

Respiratory protection: gas mask. Based on local and government regulations. Hand protection: protective gloves.

Eye protection: Safety goggles. If necessary, wear a mask.

Skin and body protection: Protective clothing. If necessary, wear protective boots.

8.4 Environmental protection

Local ventilation recommended

General ventilation recommended

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 General information

Physical state/form..... liquid

Color..... colorless

pH.....not determined

Boiling point……..…: 255℃ at 760mmHg

Melting point..... not determined

Flash point..... 108℃
Upper explosion limit..... no data available
Lower explosion limit..... no data available
Vapor pressure..... no data available
Vapor density..... no data available
Density/relative density..... 1.045g/ml
Solubility..... not miscible in water

10. STABILITY AND REACTIVITY

10.1 General information

If stored and handled in accordance with standard industrial practices no hazardous reactions are known.

10.2 Chemical stability: Sensitive to humidity.

10.3 Reactivity

Conditions to avoid: Incompatible materials, sources of ignition, excess heat, exposure to moist air.

Hazardous decomposition products: Carbon oxides and incompletely combusted carbon compounds, formaldehyde, silicon dioxide.

Dangerous Polymerization: Polymerization may occur in the presence of water, strong acids, and heat.

11. TOXICOLOGICAL INFORMATION

11.1 Route of infection: inhalation, skin contact and ingestion.

11.2 Signs and symptoms of overexposure:

Harmful if inhaled. May be harmful if swallowed. Causes serious eye damage. May cause skin irritation. May cause an allergic skin reaction.

11.3 Acute toxicity

Chemical name	CAS	LD50 (oral)	LD50 (percutaneous)	LC50 (inhalation)
γ-(Methacryloxyl)propyltrimethoxysilane	2530-85-0	＞2000 mg/kg (rat)	＞2000 mg/kg (rabbit)	＞2.28 mg/l（rat 4 h）

Potential health effects

Inhalation May be harmful if inhaled. May cause respiratory irritation.

Ingestion Harmful if swallowed.

Skin May be harmful if absorbed through skin. May cause skin irritation.

Eye Causes eye irritation.

11.4 Chronic toxicity

Organosilicon compounds are generally low in toxicity

11.5 Other health hazard information

This material may liberate methanol from contact with moisture or humid air. Excessive methanol can cause blindness and nervous system effects.

12. ECOLOGICAL INFORMATION

12.1 Ecotoxicity:

Fish: LC50> 1024 mg / l Test time: 96 hours Brachydanio rerio

Toxicity to daphnia and other aquatic invertebrates: EC50 876 mg / l Test time: 48 hours Daphnia magna

Algae: EC50 536 mg / l Test time: 72 hoursScenedesmus subspicatus

12.2 Residual / degradable

This product hydrolyzes in water or humid air, releasing methanol and organic silicon compounds

12.3 Potential Bioaccumulation (BCF): No data available

12.4 Mobility in soil: no data available

12.5 Additional environmental information

Even in the case of professional handling or disposal, environmental hazards cannot be ruled out.

13. DISPOSAL CONSIDERATIONS

13.1 Products disposal

Properly dispose in accordance with local regulations.

13.2 Package disposal

Properly dispose in accordance with local regulations.

14. TRANSPORT INFORMATION

Dangerous goods category: None United

Nations number (UN No.): None Packing

group: None

Official shipping name: γ-(Methacryl oxyl)propyl tri methoxy silane

Chemical name: γ-(Methacryl oxyl)propy ltri methoxy silane

This product is not classified as dangerous by UN, IATA, IMDG

15. REGULATORY INFORMATION

National and local regulations must be followed. Refer to the information in this document. "Regulations on the Safety Management of Dangerous Chemicals" (promulgated by the State Council on February 16, 2011): Corresponding regulations have been made for the safe use, production, storage, transportation, loading and unloading of dangerous chemicals.

16. OTHER INFORMATION

Prepared by ANHUI MOON TECHNOLOGY CO.,LTD..

(R) indicates Registered Trademark

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The above information relates only to the specific materials designated herein and may not be valid for such materials used in combination with any other materials or in any process or if the material is altered or processed, unless specified in the text.
